

**Writing Assignment 3
First-Aid Letter**

Your roommate has a bad case of strep throat and health services just prescribed a course of antibiotics. You don't want to go in the room and risk getting sick or waking your roommate. **Write a letter to leave on the door of your room to explain why your roommate should take all of the antibiotics**, even after the strep throat symptoms are gone. In terms any Drew undergraduate will understand, provide a biologically valid explanation.

Your letter should be no longer than **2 double-spaced pages**.

The purpose of your letter is to explain a scientific concept you have learned in one of your classes using the vocabulary and style that you use in your everyday interactions with the people around you.

Due date: Thursday, October 11
