

# Drew University's European Semester in Brussels: Fall 2009

## EXPERIENCE THE NEW EUROPE

Drew University's European Semester offers students the tools and knowledge to explore the implications of change for Europe's distinct economic, political and cultural traditions. Those traditions now confront each other across centuries-old barriers, and Europeans are in the process of defining a new concept of citizenship. The center of this process is Brussels, the ideal city to discover the New Europe. Students enroll for four courses and will travel to complete a one-week field study in another location.
